NEXIE

2027 Pathway Planner

Explore your purpose.
Discover your pathway.

Life • Learning • Work • Enterprise

BEGIN WHERE YOU ARE

Your next chapter starts with understanding

You do not need a business idea, a professional title or all the answers to begin.

This planner helps you recognise what you already bring, explore NEXIE learning and choose a manageable next step in life, learning, work or enterprise.

Use it independently, revisit it over time or bring it to optional personalised educational coaching. Leave questions blank when you are still exploring.

There are no right answers. "I am still exploring" is a useful starting point.

My name and date

What has brought me here today?

What would I like to become clearer about?

CHOOSE A STARTING DIRECTION

Find a pathway that fits your interests

You may recognise yourself in more than one direction. You can start with learning and decide how to apply it over time.

Life and family

Explore understanding, relationships, parenting, home learning and everyday development.

Learning and professional practice

Build educational knowledge and apply relevant resources within your existing role and scope.

Work and future pathways

Recognise strengths, explore possibilities and prepare for opportunities. NEXIE STEP is specifically for students and early school leavers.

Independent enterprise

Explore how your capabilities and interests could inform your own business through relevant Business Blueprint and enterprise learning.

My starting direction and why it matters

EXPLORE NEXIE LEARNING

Follow an interest, a need or a possibility

You do not need to know a program name to begin. These examples can help you identify an area to explore.

MUMspired / Kidspired

Family learning, parenting, home education and participation.

ECHOS / GEMS

Supported play, family engagement and developmental education.

SYMBEB / LAMAHS

Individual differences, learning interactions and educational environments.

NEXIE IN / BRIDGE

Educator practice, service inquiry and trainer professional learning.

Business Blueprint / STEP

Enterprise learning, with STEP reserved for students and early school leavers.

CARIE / Guided Application Coaching

Reflection and optional personalised educational support for applying learning.

Understanding Before Intervention

NEXIE = NeuroEducation × Individual Experience

EXPLORE YOUR NEXT STEP / PART 1

Start with what matters to you

Answer what feels useful today. These prompts are invitations to reflect, not entry requirements.

1. What would I like to understand or change?

Think about life, relationships, learning, work or future possibilities.

2. Who am I exploring this for?

Myself, my family, people I support, my workplace or a future enterprise.

3. What strengths and experiences can I build on?

Include lived experience, interests, practical skills, study and work.

4. Which NEXIE learning area interests me?

Write a topic or need. You do not need to know a program name.

EXPLORE YOUR NEXT STEP / PART 2

Choose a pace and support that fit

Learning can begin with one small step. Your plan can change as your understanding develops.

5. How would I like to apply what I learn?

What could become easier, clearer or more purposeful?

6. What time and capacity do I have available?

Choose a pace that fits your circumstances and current responsibilities.

7. What kind of learning support would help?

Independent resources, practical examples, reflection or personalised educational coaching.

8. What is one manageable next step?

Choose something small enough to begin.

YOUR PERSONAL ACTION PLAN

Turn understanding into action

Knowing: What do I understand? Loving: What matters to me? Willing: What do I freely choose to act on?

My starting direction

The topic or NEXIE resource I will explore

My first manageable action

The support or conditions that would help

When I will begin and review

How I will recognise progress

KEEP EXPLORING

Begin with learning. Build your next step.

Choose learning that connects with your circumstances, then use reflection and practical application to develop understanding.

The NEXIE approach

PEDICure brings together Prevention, Education, Detection, Intervention and Correction, with URE throughout. This planner is a starting reflection tool; it does not replace the five-step learning process.

Optional personalised support

NEXIE Guided Application Coaching provides additional personalised educational support. It is separate from existing Learning Hubs and is optional.

Clear information before you choose

Use the relevant offer information to understand learning outcomes, inclusions, prerequisites, accreditation status and resource-use terms. Ask NEXIE about anything unclear; you do not need to resolve these details through this planner.

If you later choose to offer services, identify the preparation and requirements relevant to your specific activities before commencing. Learning, business ownership and professional qualifications are distinct.
